**PRINCIPAL**

To the Class of 2006,

As principal, I have had the privilege of watching you grow from freshmen to sophisticated seniors. I hope that journey was as rewarding for you as it was for me. Although you are physically leaving us, you will always remain with us spiritually. Our thoughts and wishes will be with you. You are the measure of our success.

To that end, we hope we have prepared you well. We hope your academic preparation will enable you to succeed in college. We hope we have instilled in you a true sense of self, which will enable you to overcome any challenge you may face. We hope that we have engrained in you a work ethic that will be an asset to you in the workplace. We hope that you have acquired a love of learning that will allow you to rise above all others. We hope that you have forged friendships that will last a lifetime. Last, but not least, we hope you have developed a true sense of community spirit that will motivate you to give of yourself and to those less fortunate.

# Dedication

## BRANDEN RIPPEY

Great teachers inspire students to succeed academically. Great people inspire people to better the world. Although rarely are teachers able to achieve a favorable balance between the two, Branden Rippey has and continues to prove that you can be a great teacher and still be a great person. The passion, the love, and the dedication to the material he teaches and the unrestrained methods he uses to get his students to think critically are sometimes seen as unorthodox, but in all honesty, they are all pure genius. Mr. Rippey has inspired even the most lethargic amongst us to get up and start

looking at the world around us. He ripped the veil! He tore down the wall! For his consistent dedication to the student body of Science High, dedicating this yearbook to him is but a small part of the thanks we all wish we could give Mr. Rippey.

- On behalf of the Class of 2006, Mark Cerqueira

## MARIA LEBRON

### Thank You for All That You Have Done

Thank you for all that you have done.  
Hard times are now turned into times of pride.  
All this we managed with you by our side,  
Nor could we otherwise this course have run.  
Kindness isn't tendered on demand:  
You gave with love, not merely out of duty.  
Our days are daily burnished by that beauty.  
Upon your love we now proudly stand.

Thank you Maria! We couldn't have done this without you!

Love, The Class of '06

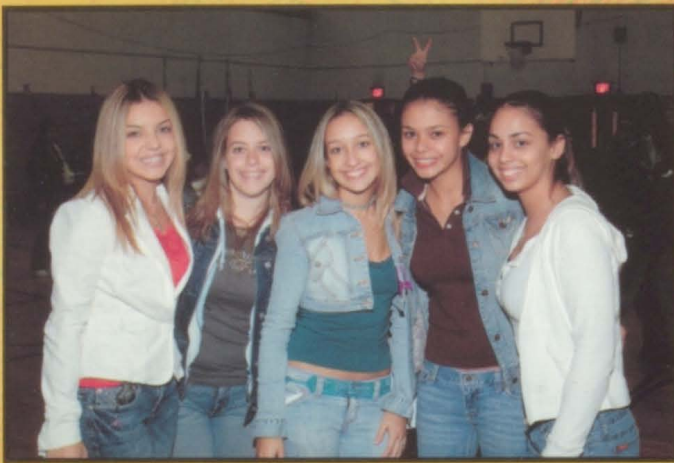

## Our Dream Becomes a Reality

*The last days of our high school years will not only be shared by our class, but also by the very building we called our home away from home for four years. Our building, which was once a brewery, then a laboratory, before becoming the best public high school in Newark, may not have provided us with the best of resources, but it did give us the one thing that will be difficult to recreate in any new state-of-the-art facility. Although the everyday obstacles we faced in this small building may have been nuisances to a life already riddled with enough stressors, this building gave us a sense of community and closeness that made us a family rather than a rendezvous point for some of the most brilliant minds in Newark. Although many of us may be frustrated that we were never given access to countless resources that will be available to Science Park students in years to come, we should rejoice because we were given something much greater that could never be recreated- a second family.*

## MILAGROS CRUZ

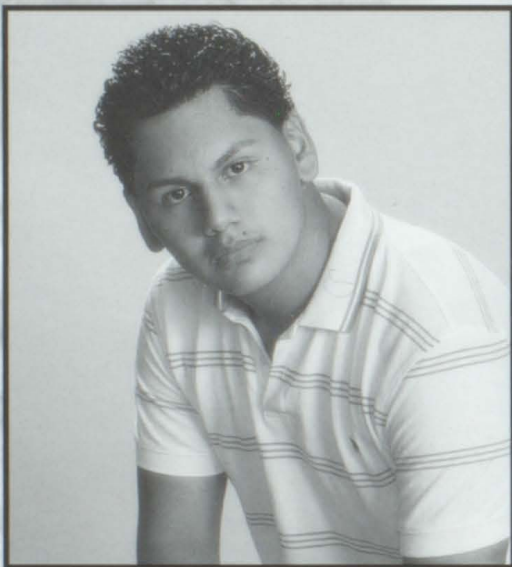

*Milagros Cruz*

Finally, after four years of being overwhelmed with tons of work (some of which was useless) justified by that irritating phrase "I'm preparing you for college", I can finally say that I made it. From late night papers, and immature pranks, to harassing Mr. Rippey in the teacher's lounge, high school possesses a great deal of stories to entertain the masses. Thanks to all of my friends who joined in on the fun, making academically self-challenging experience a little more enjoyable, and good luck to the class of 2006.

## JASON CUNAS

To those friends who kept me company after school, Juan, Adrian, JR., and Justin. Thank you. To those people I hurt, was mean to, or ignored, I'm sorry. To the class of 2006, good luck and I'll miss you all.

## AMANDA CUNNIGHAM

*A. Cunningham*

In the end you'll realize, the people you need during high school, are the same people you'll avoid in life. Over time I've learned to redefine the word, "friendship". So thank you to all the special girls that have been with me since day one. It's been fun c/o 2006, good luck.

Psalm 100

1. Make a joyful shout to the LORD, all you lands!
2. Serve the LORD with gladness; Come before his presence with singing.
3. Know that the LORD, he is God; it is he who has made us, and not we ourselves; we are his people and the sheep of his pasture.
4. Enter into his gates with thanksgiving, and into his courts with praise. Be thankful to him and bless his name.
5. For the LORD is good; his mercy is everlasting, and his truth endures to all generations

## VIRGINIA DOS SANTOS

*Virginia Dos Santos*

High school has been like a rollercoaster ride with its ups and downs. With its ups, I have made some of the best memories of my life. And with its downs, was when I learned who my true friends really were. They have always attempted to put a smile on my face when I was down. And most importantly, they accept me for who I am. I would like to thank them all as well as my parents, my family, and my teachers. I truly appreciate everything you have done from the bottom of my heart.

## JULIANA DUARTE

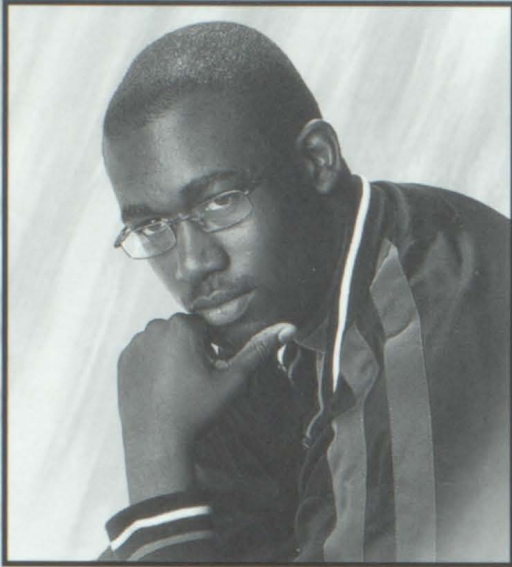

*Juliana Duarte*

To all my fellow science highers— remember when I got hit by a car on McCarter Highway when chasing a pink rubber ball? Well, I hope you all have learned a valuable lesson so in the future you won't make the same mistake I made. I wish everyone the best of luck in their future. To all of you, my dearest friends and unknown people, love peace and happiness...and finally, I'M OUT!

## JONATHAN DYSON

The time has finally come for all of us to move forward and step into our true beginning. During my years at Science I've had endless memories. Motivation given to me by teachers, advice given to me by friends, and love and support given to me from my mother, has made me the lady that is graduating this year. I will always keep a bit of everyone who has affected me as I progress through life. Congratulations class of 2006!

## JUNIOR GYAMERA

It's been a long journey but it seemed so short. The time has come for us to part and as I look back I can say I've made the right choices, from choosing to attend Science to choosing to play football for East Side. The friendships I have gained from this journey are ones that were there from the beginning like Justin, Francois, Cephas, and Jason to the most recent like Gerald, Isais, Mitch, Idalia, and Besa. I just want to say thanks to everyone for having an impact on my life one way or another.

As I stepped into Science High School for the first time, I never expected for this place to be where I was going to, not only learn so much, but have so much fun. Here I disclosed that there are teachers that, just as Ms. Reynolds are dedicated to giving their best. CONGRATULATIONS!

Every day I woke up with that same sluggish feeling, and always complaining about going to school. Now four years have passed and I'm glad I did go. Now is when I realize if I hadn't gone I would've missed out on friends, and on all those times making teachers wonder whether Olga and I were really sisters, on all those very interesting bus rides in the morning with Juliana, and just "chillen" with Nidia and the "crew." And how can I forget about my wonderful teachers that with their experience and wisdom taught each and every single one of us. All these memories will remain in my heart, and never will they die! The time has come to follow our own paths.

If I've learned anything during the past four years at Science it's that people are never what you perceive them to be at first glance, and that can be good or bad. Some people, the ones that I can call my best friends, were not people I particularly liked freshmen year. But now I can't imagine my life without them. High school was... odd. From Mr. Prudential security guy, to good ole' days in science class attempting at achieving partial enlightenment through headstands and random outbursts of joy, 'fun' bus rides to swimming practice, and back, undetected lurgification in calculus, Word, drama club opening night excitement, floods in the locker-rooms, and history class edumacation.

So before the sun sets and the moon shines the night, I want my friends to know I love y'all for life. Peace

Finally, out of high school. These four years were something. I can't quite put my finger on it though. Off to college. Class of '06, keep your heads high.

## FELIPE SIQUEIRA

*Felipe Siqueira*

To the graduating class of 2006: We have shared a lot of special times and moments that have made me a better person. We may not have had a beautiful building but have had wonderful friendships, even with all the drama it is worth it. It's because of these experiences that I have learned not to take anything for granted. So remember to live life as if there is no tomorrow. To all my friends I LOVE YOU!

## AROOJ SIRAJ

*Arooj Siraj*

Science High has given me many opportunities, and I have learned a lot from teachers like Rippey and Flores. Thanks to all the friends who have stuck by me, and I love you guys dearly. Inshallah, everyone of us will reach our goals. Thanks for the memories Class of 2006!!!

## OLUWAKEMI SOLANKE

Finally the storm is over, we have finally passed the test of success. Congratulation class of 06', not only have you passed, but you have passed with flying colors. We have now entered a higher level, where the test is not going to be as easy as the previous. The approach we take to tackle this test would determine the outcomes of our lives forever. The class for 2006 is a class full of stars. You will continuously be in my heart and prayers. May God guide your path towards joy and prosperity. I love you All! PS: Jackson, Rippey, Flow, Alston and Science High's teachers and staff, thank you for the wealth of knowledge.

## JENNIFER UMEBUANI

*Jennifer Umebuani*

Congratulations to myself and every senior that's graduating in the year of 2006. First thanks go to God. Without God I wouldn't be where I am today. He had helped me accomplish my goals thus far and I'm sure he'll do the same in the future. I give special thanks to family and friends who reached out and supported me throughout high school. Shout out to Quanella Ford. Thanks to being there for me. I love you girl. God Bless everyone!

## AUTUMN UPSHAW

*Autumn Upshaw*

If you look back on life and realized these four years were your most successful and the only years to define you, you haven't accomplished much. I wish everyone who deserves it much success, and to those who don't, oh well. If we never are as close as today, I'll always remember you, Aoi, Leisha, Leslie, Ki-Ki, Shanice, and anyone who was just nice to me. I love you. Thanx 4 making this as pleasant as possible.

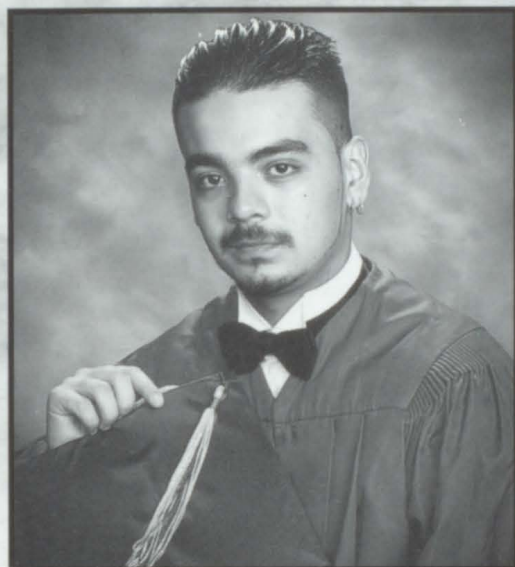

## REINA VALENTIN

*Reina H. Valentin*

At this point in my life, I feel like a new experience is exactly what I need. High school was a great and somewhat terrible experience, but I will keep all the lessons learned close to my heart. It is because of them, that I have grown and matured the way I did. I faced a lot of obstacles in my life, and I want to thank those who never hesitated to lend me their shoulder to lean on. I love you guys... Class of '06!

## CARLOS VASQUEZ

*Carlos Vasquez*

Here, in Science, I learned to choose my friends wisely, I learned to trust, I learned to Love, I learned to live and I learned from my mistakes. From the time I was a freshman, to now, I've made many new friends who have helped me to grow. So those friends and staff, to those who told me to follow my passion, there is no need for shout outs, you know who you are, and you will never be forgotten.

Being a proud CHARGER takes a lot of hard work and dedication. We must take this with us everywhere we go. As we grow older each day we learn that time shows us how to be independent and how to become a better person. There is a good reason they call these ceremonies "commencement exercises." Graduation is not the end; it's the beginning of our success.

## JESSEN VENORD

*Jessen Venord*

It seems as though the years are quickly passing us by  
And time just seems to fly.  
It was fun being with you throughout all my High School years  
And I hope you all get accepted into the college of your choice as the end of the year nears.  
I wish you all the best of luck in whatever you do,  
And just remember to try your best when trying to pursue any dream, as I plan to.

## CHRISTOPHER VIDAL

Dedicated to the people I love: my mother, my brothers Andres and G.P. and to all other relatives, especially those who have passed away. These few years have taught me a lot about life and friends. Everyone I've met has changed me for the better especially these closest to me like, Felipepee, Paulinho and those who graduated, Thiago, Eduardo, and Davie. I would like to leave high school without enemies but everyone makes mistakes and I forgive them. Class of 2006!

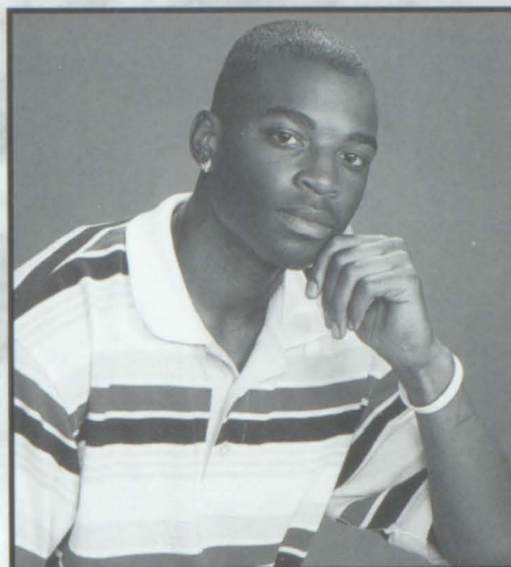

## SUSANA VIEIRA

*Susana Vieira*

Words can't explain SHS and all its wonder. I came into this school not knowing what to expect, but with motivation and the help of family and freinds, I was able to make it through. To the many lovely individuals that I met along my journey and to the ones who stuck by my side, I thank you all. I wish this class the best of luck in their future endeavors, and my all go well as we enter the "real world". "Carpe Diem!"

## DASHAWN WALKER

*Dashawn Walker*

Girls called me a flirt. Dudes called me a pimp. Both said I was conceited. Some simply didn't know me. Others didn't even want to know me. But who really cares what they think? All I know is that I just spent the best four years of my life, and I hope you did too.

"Emancipate yourself from mental slavery none but ourselves can free our minds." - Bob Marley. These last four years, the most important people in my life have pushed me to live by this. Mommy, Daddy, and my fiancée, Javar, I love you all. That's for allowing me to see that everything is not one way and that listening to others will help me understand myself and grow up to be the mature individual I need to be. To the rest of my family, I love you no matter what. To my Science high students, I hope life gives you all the things you deserve because karma is real talk. Forget me not.

Codington finished 3rd in the 4x200 Relay and 3rd for the Sprint Medley Relay. J. Codington finished 2nd in the open 800m. These are the highest finishes for SHS in the last 10 years. The boys finished 2nd in Group I State Championship in the Sprint Medley Relay and 3rd in the 4x200 in the state meet. This is the best in school history.

**Girls' Captains:** Jessica Mejia '07, Landina Lane '08, Nicole Scipio '06  
**Boys' Captains:** William Elmore, Jr. '06, Jeffrey Lawton '06, Mitchell Young '07, Jason Codington '07  
**Coaches:** Tyrone Johnson, Dara Crocker, Horace Hooper, Nate Campbell

**Girls:** Cross Country was especially strong as the girls finished 1st in the City Meet. They were boosted by captains' efforts as well as newcomers D. AVECILLAS, K. Ward, & C. Goncalves. L. Lane finished 2nd overall in the girls varsity race. Indoors, girls continued to drop their time and improve.

I would like to thank Roxene James, the only senior on the SHS girls' soccer team. She was a very dedicated and vital member of the team who will be missed. She has played on the team since her sophomore year always ready to face challenges and opponents with reliance and determination. I would like to thank her for her contribution to building the girl's soccer program at SHS.

# Boys' Basketball

The 2005-2006 defending Group I champion Science High School varsity basketball team began the season ranked 6th among the state's top 20 teams, and with the entire team returning, there were great expectations. One of those expectations was fulfilled when the Chargers won their first ever Newark Christmas Tournament by defeating a rugged and highly regarded East Side team 49-46. However, as the season progressed, disappointing outings against #1 ranked Bloomfield Tech and #14 ranked Columbia of Maplewood during the Essex County Tournament quarterfinals proved too difficult to overcome. Although the Chargers won their third consecutive Colonial Hills Conference Championship, additional losses to #8 ranked East Orange Campus and #15 Atlantic City

Senior Members: Christopher Brown, Abdoulaye Ouedraogo, Garrett McCloud, Sean Crawford, Malcolm Glover, Joseph Ellis, Quadir Bellamy, Dajuan Hatch, Pedro Rosario, Coach Gaylord

concluded the regular season on a downswing. A final opportunity to defend their Group I title was thwarted by Bloomfield Tech, who defeated us for a second time this season. The Chargers completed their season, however, with a sparkling 21-5 record and championship memories that will last a lifetime. The seniors on this year's squad completed a four year varsity experience, which resulted in a proud legacy that will long be remembered.

# National Honor Society

Science High School is affiliated with the nation's most esteemed recognition organization, the National Honor Society. NHS membership is highly selective and is based on academic achievement, citizenship, scholarship, leadership, and community commitment. This year's NHS is comprised of students who have proved their character and have demonstrated their dedication to our school for four years. With this representation, they have displayed their service in annual deliveries of Christmas greeting candy canes, arrangements for Open House nights, and distribution of report cards. In addition, their management of Freshmen Orientation, their donations to St. James Hospital, and their collection of can tops for contribution to the Ronald McDonald House, have exemplified the honorary standards that constitute true NHS members.

# Math Olympics

Since 1991, the year the district implemented its first Math Olympic competition, SHS has won 35 first place awards. There are 6 areas of competition, but we only field teams in 5 areas, since we do not have a Math Foundations course. This fact makes the winning of 35 first place awards even more outstanding!

Our club meets on a weekly basis. During our meetings, teams work on practice problems from their respective courses. Because the competition is both written and verbal, our practices consist of both types of problems.

## Raymond Bristol SPANISH TEACHER

What can be said about Mr. Bristol that has not already been said? Although he is not Hispanic (I don't think), Mr. Bristol speaks the Spanish language with eloquence and ease. Perhaps this is the reason he is such a success as the Spanish

II and Spanish III teacher at Science High School. I had the pleasure of being a member in one of his Spanish II classes in the 2004-2005 school year, so I speak from experience and from my heart when I say Mr. Bristol is one of the finest teachers at Science High School. I am sure he will be sorely missed by the remaining faculty and student body as he leaves Science High. On behalf of myself and the class of 2006, we will miss you Mr. Bristol! Thank you for touching our lives.

-Roxene James

*We will never forget you.*

Susan Rocco  
**MATHEMATICS  
TEACHER**

"A good teacher is like a candle—it consumes itself to light the way for others." Not many people can say that they have what it takes to be an idol, but one specific and strong willed woman has been the aforementioned and more, encouraging her students

to realize they have what it takes to accomplish anything. Ms. Susan Rocco has been a part of our Science High community from the very beginning as a mathematics teacher, and now not lonely is a spectacular teacher leaving us, but a friend who was there to guide us as well. We wish her the best of luck and want to thank her for her undying devotion to her students. Thank you for being simply the best, and how you did it we will never now.

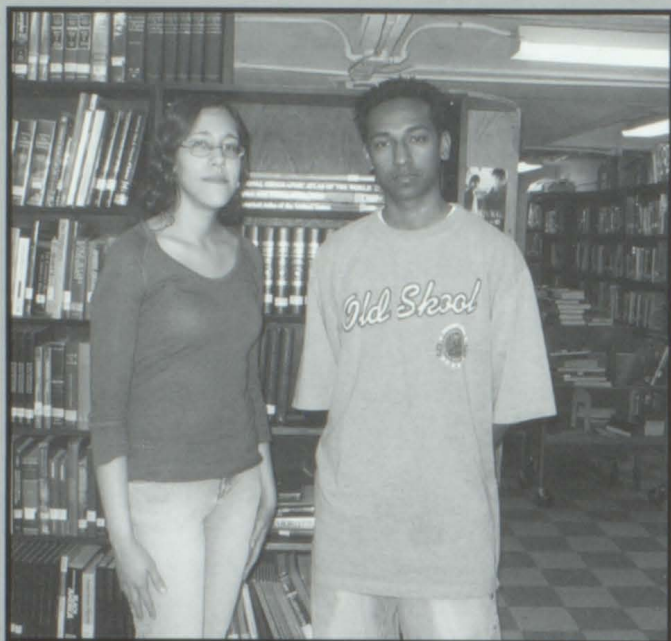

Mrs. Elaine White has been the heart and soul here in Science High for many years. Although retiring, she is leaving a legacy of a peer-leadership tradition that could be set apart from all other schools in its tight family-like circle of seniors and juniors on-a-mission. Her shoes would be hard to fill for she set high standards for all of us and in example of her good nature we attempted to achieve our best selves. The imprint Mrs. White left in our hearts will never be obliterated.

Hurricanes ravage the Gulf Coast region in the fall of 2005, posing an unprecedented test of the United States federal emergency response efforts. Hundreds of lives are lost and thousands are left homeless in the wake of Category 4 Hurricane Katrina, followed by Rita and Wilma. The tragedy spurs contributions of money, talents, homes, food and more in an attempt to raise spirits and rebuild the area.

## August

- 28 Mandatory evacuation of both New Orleans and Mississippi is ordered as Katrina becomes a Category 5 storm in the Gulf of Mexico.
- 29 Downgraded to a Category 4 storm, Katrina hits land. 1.3 million homes and businesses lose electricity in Louisiana, Mississippi and Alabama. 30 levees are breached, flooding New Orleans and leaving 100,000 people stranded. After slow government response, civil unrest and looting begins.
- 31 President Bush surveys the damage.

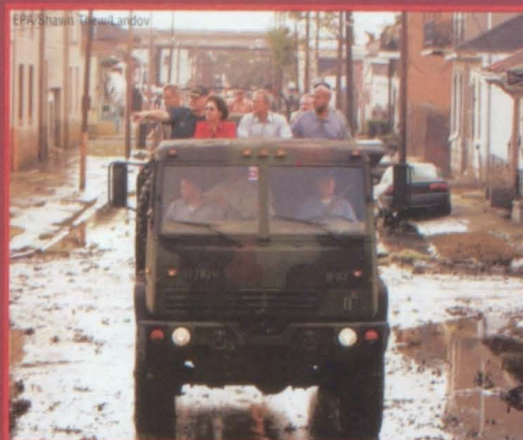

## September

- 1 30,000 National Guard troops are deployed. Gas prices spike to as high as \$5 per gallon.
- 2 President Bush visits Louisiana and signs a \$10.5 billion relief bill. Nearly 154,000 evacuees arrive in Texas.
- 4 The New Orleans Superdome is evacuated.
- 6 President Bush and Congress pledge to investigate the flawed disaster response.
- 9 Government-issued debit cards are distributed to evacuees. The program fails and is ended days later.
- 12 Michael Brown, head of the Federal Emergency Management Agency, resigns. Flooding is down to 50 percent in New Orleans.
- 14 New Orleans Mayor Ray Nagin announces a phased repopulation plan.
- 15 New Orleans begins to reopen. Katrina is named the most destructive hurricane in U.S. history.
- 20 Louisiana Governor Kathleen Blanco declares a state of emergency as Hurricane Rita strengthens off the coast.
- 22 Rita hits the Louisiana coast and heads for Texas.
- 23 Thousands evacuate eastern Texas and the 9th Ward of New Orleans floods once again after levees are overrun.

## October

- 24 Hurricane Wilma hits southwest Florida.
